EVIDENCE NOTE

Stage 1 written situations are administered through an AI system. A Stage 1 observation enters the evidence record only after authorized human confirmation. Source linked statements remain subject to participant review, correction, amendment and evidence currency controls.

Permitted use: This report provides supplementary behavioral evidence from defined workplace situations. It may be considered as one source of information in an employer's independent employment judgment. It does not recommend or determine an employment decision and must not be used as the sole basis for adverse employment action. It is not a prediction of job performance, retention or probation outcome.

Disclosure limits: This report was made available at the participant's discretion and covers only the evidence window stated above. Withdrawal ends availability for subsequent access through The 3rd Academy; it does not recall a copy already read. Earlier or later reports may exist; this page is not the complete observation history.

Record integrity: Statements are source linked and subject to participant review, correction, amendment and evidence currency controls. Withdrawal is governed separately and applies to employer availability, not to the evidence record.

Verification: A verification check confirms authenticity and current status; it does not disclose report content or participant identity.
